Office Rackmount Series

A Smart Choice for Wise Corporate

APPLICATIONS

- Home and Home Office
- Small Office
- Medium Business

The Office Rackmount UPS Series offers users from SMEs to corporate data centers clean and stable power supply with the featured RJ11/RJ45 port ensuring phone, fax, and modem lines are protected from surges. With Automatic Voltage Regulation (AVR) stabilizing the AC signal and maintaining a safe voltage, the UPS ensures safe power levels for the connected equipment without resorting to battery power.

The multifunction LCD readout provides immediate access to precise information of critical power/battery conditions. An optional SNMP/HTTP Remote Management Capability enables remote management and control of the system through standard web browser.

The included PowerPanel® Business Edition management software provides administrators comprehensive network power management including unattended-shutdown, event logging, reporting, and notifications. With the patented GreenPower UPS™ Technology, Office Rackmount Series can save up to 75% of electricity and therefore save your electricity expenses.
